**AMAZING STORIES**

To make sure Delisha gets the best start in life, mom enrolled in our Every Child Succeeds program. With the help of her home visitor, mom recently learned to make a rattle and use it to promote eye coordination and fine motor skills. Mom has lots of dreams and goals for herself and Delisha and she thinks The Children’s Home is a great resource to help her achieve them.

Delisha

Kolbie was referred to our early childhood day treatment program because of her aggressive behaviors and difficulty making friends. Building on her strengths, our staff helped Kolbie learn to manage her anger and how to get along with others. She has successfully transitioned back to school and is on track educationally and socially.

Kolbie

Lucas went from being an intern to full-time employee after participating in Ready 2 Work! This 10-week summer internship program for students with autism and related disorders is a partnership with U.S. Bank. Students who are on the spectrum are placed in jobs where they’ll thrive, which is exactly what Lucas is doing in his job with U.S. Bank.

Lucas

**THEY LIKE US**

100% Referral Sources are satisfied with our services
99% Parents would recommend our services

The Children’s Home has been an amazing support system not only for my child but for me as well.

“

He has learned to handle himself better in a classroom setting. He doesn’t give up so easily.

I would recommend The Children’s Home to anyone who needs help for their child.

His social skills have improved and his grades have gone way up. He is now above average in a lot of subjects. His self-esteem has improved quite a bit as well.

The Children’s Home is really the only program that provides the services my child needs. The level of services is impressive!

Our mission is to create lasting results that strengthen families and our community by guiding individuals – from infancy to independence – through comprehensive education, behavioral, and health services.
