

## What happens if I am interested?

- Your referral is sent to the MBD program.
- The MBD therapist will contact you to schedule or confirm the eligibility assessment to see if the program fits your needs.
- Once accepted, you will receive 15 weekly sessions with two follow up booster sessions.

## After recovery, mothers often report:

- Improved coping with stress.
- More energy.
- Improved sleep.
- Brighter mood.
- Greater satisfaction as a parent.
- Closer and more supportive relationships.
- More confidence.

### ***Many depressed mothers...***

- Feel overwhelmed in carrying out parenting responsibilities.
- Have less energy to be the kind of parent they want to be.
- Feel they don't have anyone to turn to for help and support.

### ***Common symptoms of depression***

- Feelings of sadness
- Low energy
- Changes in appetite
- Sleeping problems
- Irritability
- Crying
- Feelings of worthlessness
- Memory problems

### ***Children of depressed mothers are at greater risk for...***

- Delays in learning
- Behavior problems
- Becoming depressed themselves

### ***Moving Beyond Depression (MBD)***

is an in-home treatment program for mothers who are experiencing depression. Mothers in MBD will receive 15 weekly sessions and two follow-up booster sessions.
